

ENERGY LITERACY PRACTICE PROJECT NEWSLETTER

Welcome to the 1st issue of the Energy Literacy Practice Project newsletter. EL Practice project has commenced and we all partners diligently working on a significant contribution to empower people to shape the world around them. The project started on 01.02.2022.

PARTNERS:

- **THE ASSOCIATION OF MUNICIPALITIES POLISH NETWORK „ENERGIE CITÉS” (PNEC)**
- **INNOVATION HIVE**
- **Mednarodni inštitut za implementacijo trajnostnega razvoja, Maribor**
- **North-West Croatia Regional Energy Agency**
- **LEVILO - Verein für ökologische und soziale Nachhaltigkeit**
- **ZAVOD ENERGETSKA AGENCIJA ZA SAVINJSKO SALESKO IN KOROSKO**

The first transnational meeting was held in Maribor Slovenia on 08-09.03.2022, where we went through the project together and got to know each other. We celebrated EL Practice's approval and the oath of unity by gathering partners, experts, and members of the several European organizations.

GOALS IN EL-PRACTICE

We will give a special attention in developing interactive and accessible energy literacy knowledge and competencies e-course via mobile-friendly platform, especially focusing on young adults to foster positive energy related behavioral changes to co-create a sustainable Europe we all want.

1 mapping of the existing competencies and knowledge levels in the partners countries, regarding energy literacy of young adults

2 e-course (on a mobile-friendly platform) for gaining knowledge, skills and competencies on energy literacy

4 carry out the multiplier events

3 design and create learning materials and test the e-course with "short-term staff and adult's trainings

5 dissemination activities

6 organizational networking

What are we working on now?

PR1 - Competences about energy literacy by young adults

We want to analyse and map of existing energy literacy competencies among young adults. Thanks to competence questionnaire realised on May 2022, we carried out detailed analyses to define gaps, discover the needs of young adults and highlight the common elements of competencies, what will help us on the next stages of the project.
