HELLO!

## WELCOME TO OUR 4TH EL-PRACTICE PROJECT OFFICIAL NEWSLETTER!

We are thrilled to share with you the latest update on our project's progress and initiatives. The EL-practice project is all about empowering individuals with competencies, skills, knowledge, and self-confidence to take responsibility for their life choices and actively contribute to creating a sustainable society.

### E-COURSE DEVELOPMENT UPDATE

WE ARE DELIGHTED TO SHARE THE SUCCESS OF OUR E-COURSE DEVELOPMENT!

Work on the development of a course to build competences related to conscious energy management has been underway for more than a year and now it's almost ready. We are delighted to announce that the **course will soon be available in English and in 5 languages** shortly thereafter.

The **training course**, consisting of **interactive micro-trainings**, through which knowledge can be acquired in small portions, will provide comprehensive knowledge for making better decisions on energy use, which in the long run will improve the household budget, the quality of life but also our environment.

STAY TUNED!

## C2 SHORT-TERM ADULT TRAINING IN ZAGREB, CROATIA

From **2-6 October 2023**, a **short-term adult training was held in Zagreb** and organized by REGEA. Representatives from each of the partner organizations attended, as well as young adults from Austria, Croatia, Greece, Poland, and Slovenia.

The training provided an excellent opportunity to collaborate and exchange experiences on energy and sustainable development initiatives. The main objective was to transfer new knowledge and strengthen the competencies of the representatives of the project's target group in the field of energy literacy, through a presentation of the results so far and a presentation of the interactive e-course which is under development which is a key result of the project.

## EL-PRACTICE AT SDEWES CONFERENCE

The **18th SDEWES Conference**, which took place from **24-29 September 2023 in Dubrovnik**, emphasized increasing sustainability by de-coupling growth from natural resource use and facilitating a transition to a knowledge-based economy.

On Monday, September 25th, **Ana Ulbin from MIITR** presented empirical research based on the El-practice project, examining factors influencing energy literacy among young adults in Poland, Slovenia, Croatia, Greece, and Austria. The findings reveal strong connections between energy literacy dimensions, emphasizing the significance of energy education, particularly its integration with financial literacy.

## EL-PRACTICE AT VIII ADULT EDUCATION FORUM

On **14-15 November in Warsaw**, the eighth **Adult Education Forum** organised by the Foundation for the Development of the Education System and the EPALE National Office took place.

The event brings together experts, practitioners and all those involved in adult education. During this year's event **Anna Fijas from PNEC** had the opportunity to present activities carried out as part of the **EL-Practice** project. She began her presentation by introducing participants to the definition of energy literacy and basic information about the project. The entire presentation focused on the interactive e-course, which is under development together with the other project partners.
