1. Općenito

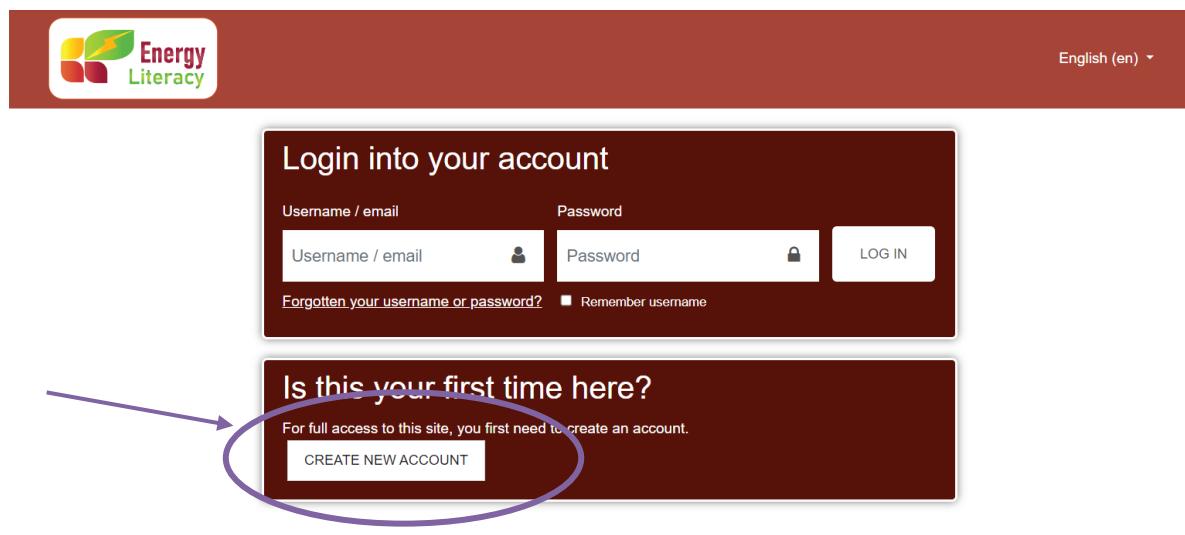

Ovaj vodič ima za cilj pomoći vam u korištenju platforme za e-učenje EL_practice.

2. Prijava

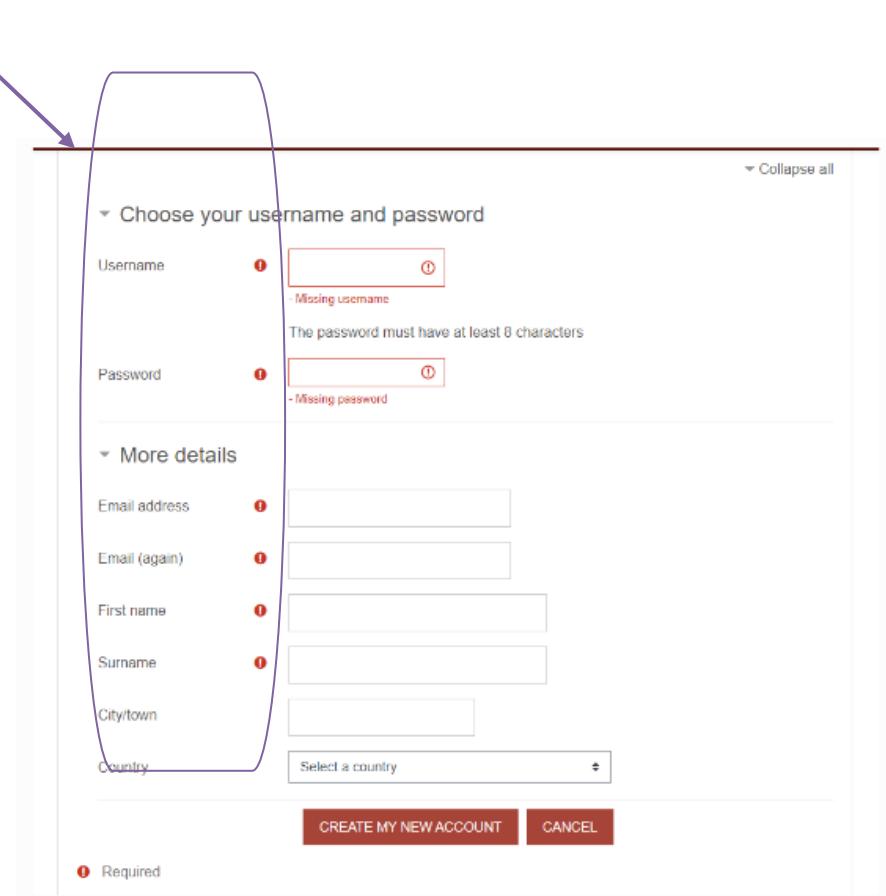

Prije svega, kako biste poboljšali svoje iskustvo na platformi, odaberite željeni jezik s padajućeg izbornika koji se nalazi u gornjem desnom kutu zaslona.

Ako još nemate račun, tečaj energetske pismenosti bit će dostupan nakon izrade računa.

Za izradu računa i pregledavanje tečaja energetske pismenosti jednostavno unesite podatke prikazane na slici ispod.

Is this your first time here?

For full access to this site, you first need to create an account.

Ako ste se uspješno prijavili, moći ćete vidjeti svoju početnu stranicu. Na ovoj stranici možete pronaći popis svih svojih prijavljenih tečajeva i njihov status, kao i odabrati željeni jezik.

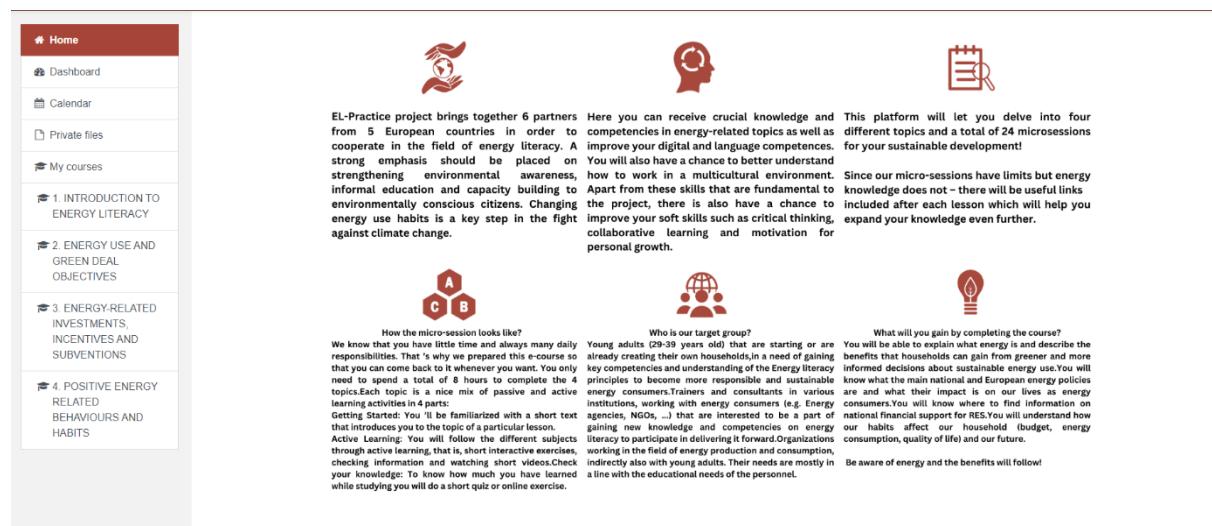

Na početnoj stranici prvo ćete pronaći neke informacije o projektu EL-Practice, njegovim ciljevima, ciljnoj skupini, kao i o mikro-sesijama.

We can't imagine our lives without energy. It is constantly produced and used. Though we all intrinsically know what energy is, defining it might be problematic for most of us. By the simplest definition: energy is the ability to do work.

But how does that ability to do work translate into actual work done? How do we express and measure energy? How does energy literacy help us to become conscious consumers and helps us to reduce our electricity bills?

If you want to know the answers to those questions, you're in the right place. With the help of interactive, fun and easy to use micro-sessions, you will be equipped with right knowledge to make decisions about the best use of energy. This will not only improve your budget, quality of living but also our environment and our future.

How the micro-session looks like?

We know that you have little time and always many daily responsibilities. That's why we prepared this e-course so that you can come back to it whenever you want. You only need to spend a total of 8 hours to complete the 4 topics in total. It is a mix of passive and active learning activities in parts:

Getting Started: You'll be familiarized with a short text that introduces you to the topic of a particular lesson.

Active Learning: You will follow the different subjects through active learning, that is, short interactive exercises, checking information and watching short videos. Check your knowledge: To know how much you have learned while studying you will do a short quiz or online exercise.

Who is our target group?

Young adults (29-39 years old) that are starting or are already creating their own households, in a need of gaining key competencies and understanding of the Energy literacy project. They are energy users and energy energy consumers. Trainers and consumers in various institutions, working with energy consumers (e.g. Energy agencies, NGOs, ...) that are interested to be a part of gaining new knowledge and competencies on energy literacy to participate in delivering it forward. Organizations working in the field of energy production and consumption, indirectly also with young adults. Their needs are mostly in a line with the educational needs of the personnel.

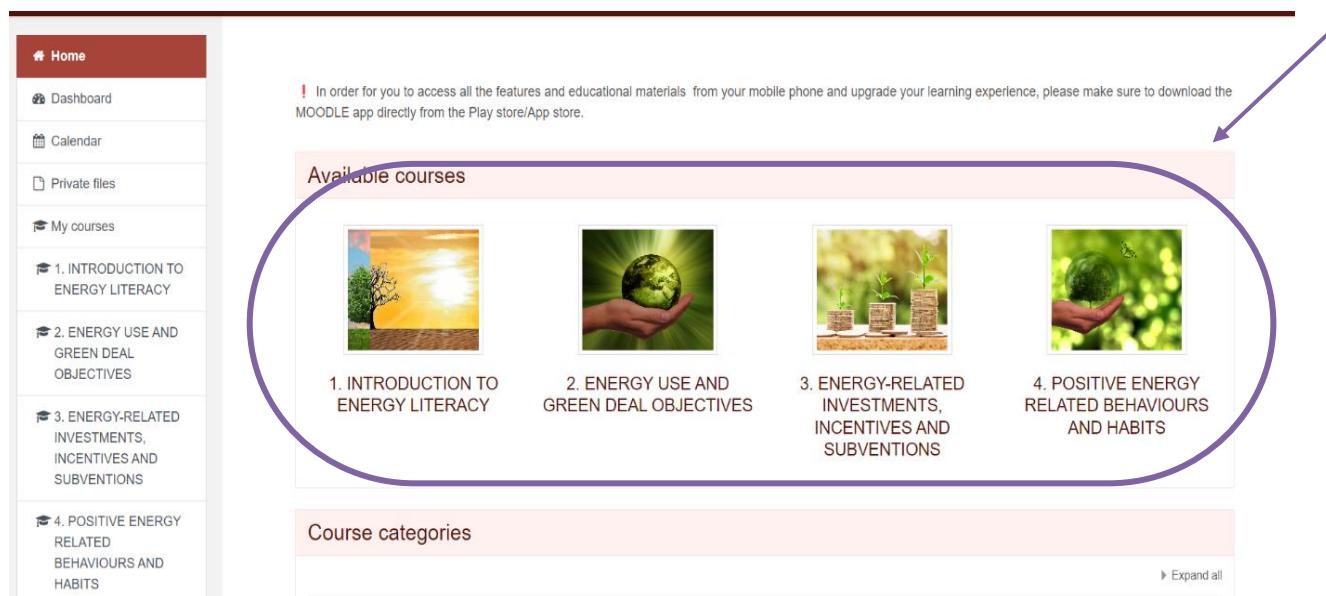

What will you gain by completing the course?

You will be able to explain what energy is and describe the benefits that households can gain from greener and more informed decisions about sustainable energy use. You will know about the national and European energy policies and what their impact is on our everyday energy consumers. You will know where to find information on national financial support for RES. You will understand how our habits affect our household (budget, energy consumption, quality of life) and our future.

Be aware of energy and the benefits will follow!

Niže na početnoj stranici, otkrit ćete četiri mikrosesije posvećene energetskoj pismenosti. Kako se može vidjeti na donjoj slici, one obuhvaćaju sljedeće teme:

- 1. Uvod u energetsку pismenost**
- 2. Upotreba energije i ciljevi Europskog zelenog plana**
- 3. Ulaganja, poticaji i subvencije u području energije**
- 4. Ponašanja i navike povezane s pozitivnom energijom**

The screenshot shows the Moodle home page. On the left is a sidebar with navigation links: Home, Dashboard, Calendar, Private files, My courses, 1. INTRODUCTION TO ENERGY LITERACY, 2. ENERGY USE AND GREEN DEAL OBJECTIVES, 3. ENERGY-RELATED INVESTMENTS, INCENTIVES AND SUBVENTIONS, and 4. POSITIVE ENERGY RELATED BEHAVIOURS AND HABITS. The main content area has a heading 'Available courses' with four items, each with an image and a title. A purple circle highlights the first four items, which correspond to the four micro-sessions listed in the text above. An arrow points from the top right towards this highlighted area.

Available courses
1. INTRODUCTION TO ENERGY LITERACY
2. ENERGY USE AND GREEN DEAL OBJECTIVES
3. ENERGY-RELATED INVESTMENTS, INCENTIVES AND SUBVENTIONS
4. POSITIVE ENERGY RELATED BEHAVIOURS AND HABITS

Unutar ove platforme istražite četiri teme mikro-sesija o energetskoj pismenosti, svaka je temeljito osmišljena kako bi proširila vaše razumijevanje i potaknula pozitivan angažman. Ove sesije predstavljaju korak prema dubljem razumijevanju područja energije, pružajući vam alate za razumijevanje i bolje donošenje odluka u području energije.

3. Struktura tečaja

Nakon što uđete u tečaj, vidjet ćete sljedeću stranicu:

1. INTRODUCTION TO ENERGY LITERACY

Home / My courses / 1. INTRODUCTION TO ENERGY LITERACY

Introduction

This topic includes aspects of basic energy terminology and illustrates the benefits that households can gain from greener and more informed decisions about sustainable energy use.

1.1 Impact on climate change and need for energy transition

Glossary

 Glossary of Topic 1

Svaka tema obuhvaća niz mikro-sesija, pažljivo osmišljenih za analiziranje i istraživanje nijansi teme koja se razmatra. Ove kratke sesije su pažljivo osmišljene kako bi dublje istražile određene aspekte, pružajući sveobuhvatno razumijevanje i nove uvide. Potičemo vas da istražite svaku od ovih mikro-sesija kako biste otključali bogatstvo znanja i proširili svoju perspektivu o energetskoj pismenosti.

Svaka mikro-sesija je dalje podijeljena na sljedeće dijelove:

1.1 Impact on climate change and need for energy transition

 Active Start

 Active learning

 Check your knowledge QUIZ

 Let's Sum it up

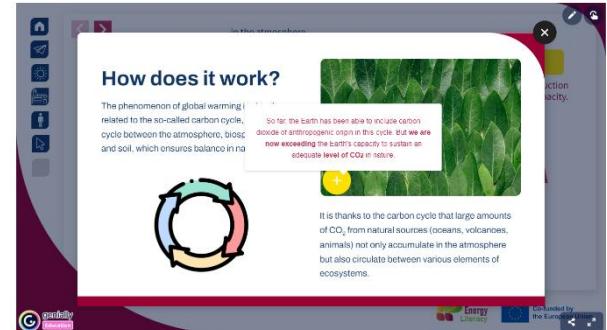

Aktivni početak (Active Start)

U odjeljku Active Start, pronaći ćete kratki uvod u mikro-sesije. Nadalje, svaka mikro-sesija obično sadrži video koji produbljuje razumijevanje teme. Dodatno, neke mikro-sesije uključuju i kvizove kako bi procijenile vaše trenutačno razumijevanje prije samog tečaja.

Aktivno učenje (Active Learning)

Unutar odjeljka za aktivno učenje, ključnog segmenta mikro-sesija, otkrit ćete pažljivo izrađene interaktivne edukativne materijale. Ovi materijali nisu samo interaktivni, već su i obogaćeni elementima zabave i animacije, pružajući jednostavno istraživanje teme.

U nastavku je primjer mikro-sesije:

Provjerite svoje znanje - KVIZ

Nakon svakog segmenta aktivnog učenja, slijedi kviz znanja. To je poput mentalne vježbe u teretani, ali umjesto dizanja utega, aktivirate svoje moždane mišiće. Hajde da istražimo sjaji li vaša energetska pismenost ili možda zahtjeva malo nadogradnje!

Sažetak

U odjeljku "Sažetak" pružamo sveobuhvatan pregled ključnih koncepata obuhvaćenih mikro-sesijom. Ovaj segment pruža strukturirani pregled koji pojačava razumijevanje i pomaže u pamćenju gradiva. Služi kao dragocjena prilika za razmišljanje o ključnim točkama lekcije, osiguravajući da sudionici napreduju s jasnim razumijevanjem teme.

U svakom odjeljku mikro-sesije imate opciju izravnog prijelaza na sljedeći ili prethodni odjeljak putem dvije strelice koje se nalaze na kraju svakog segmenta. Nadalje, nakon završetka mikro-sesije, možete prijeći na sljedeću koristeći istu intuitivnu navigacijsku metodu, kako je prikazano na slici ispod:

1. INTRODUCTION TO ENERGY LITERACY

Home / My courses / 1. INTRODUCTION TO ENERGY LITERACY / 1.1 Impact on climate change and need for energy transition / Let's sum it up

Let's sum it up

MARK AS DONE

"We are the first generation to feel the effect of climate change and the last generation who can do something about it". /Barack Obama, Former US President/ Understanding what's happening around us gives us the power to make a real difference in our environment.

Climate change is a real issue, and it's up to us to decide what we can do about it. By being aware and making intentional choices, we can play a role in shaping a better, more sustainable future for everyone. Since the green transition is, in essence, an energy transition, let's learn more about energy now! Let's move on to the next lesson.

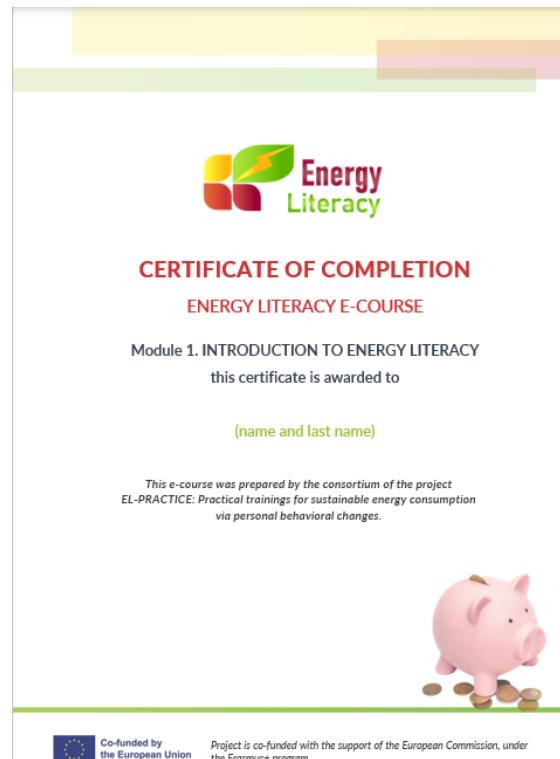

◀ CHECK YOUR KNOWLEDGE QUIZ 1.1

Jump to...

ACTIVE START ►

Po završetku svakog modula, automatski se izdaje Certifikat o sudjelovanju. Ovaj certifikat služi kao službeno priznanje sudjelovanja, dodatno potvrđujući vašu predanost kontinuiranom učenju i profesionalnom razvoju.

U gornjem desnom kutu, otkrit ćete riznicu resursa koja uključuje vaše ocjene, nadzornu ploču, postavke profila, poruke i preferencije. Ova organizacija osigurava jednostavan pristup svim relevantnim informacijama na dohvat ruke.

4. Odjava

Nakon završetka tečaja ili kada želite napraviti pauzu, možete se jednostavno odjaviti klikom na gumb za odjavu smješten u gornjem desnom kutu vašeg zaslona. To predstavlja vašu virtualnu izlaznu kartu, osiguravajući izlazak s platforme za učenje do vaše sljedeće sesije!

<https://el-practice-hub.eu/login/index.php>

Završavajući ovaj vodič za platformu e-učenja projekta EL-Practice, pozivamo vas da krenete na svoje putovanje pozitivnih promjena pomoću novostečenog znanja o energiji.
